

COVID-19 SCREENING AND DECLARATION FORM

I, _____ (Full name) _____ (ID#)

understand that:

- the COVID-19 virus has a long incubation period during and carriers of the virus may not show symptoms, yet still be highly contagious;
- having one or more of the comorbidities increase my susceptibility to COVID-19; and
- sport activities, such as squash, take place with players being in close proximity of each other, which potentially, increase my expose them to COVID-19.

I therefore understand that due to the frequency of visits of other members and or players, the characteristics of the COVID-19 virus and the nature of sport, that I have an increased risk of contracting COVID-19 by simply being at the sports facility.

I have been made aware of the rules and procedures of Uitsig Squash Club (USC), pertaining to access, use and restrictions of the USC's facilities that are applicable during the COVID-19 period. I also understand the USC Return to Club in-phasing directions and agree to comply therewith.

I also understand that the club reserves the right to suspend my membership indefinitely should I not adhere to the COVID-19 rules and procedures.

I understand that should I exhibit any of the below symptoms not access the Club. If at the Club I declare I will vacate the Club and inform the nominated Covid-19 Compliance Officer. I shall not return to the Club until such time I no longer exhibit such symptoms and/or the prerequisite period of 14 days has expired or I am cleared by a medical practitioner, whichever applies as directed by law and/or the Club's rules and directives.

Symptoms

<ul style="list-style-type: none"> • Are you having difficulty breathing? • Do you have a dry cough? • Do you have a fever? • Are you experiencing fatigue/tiredness? • Do you have diarrhoea? • Do you have a sore throat? • Are you experiencing body ache? • Do you have headaches? 	<ul style="list-style-type: none"> • Have you travelled recently in the past 14-days? • Have you had direct contact with a COVID-19 positive person? • Body temperature when screened exceeding 37.5 °C?
